

6 Panel Display Stand

How to Assemble a 6 Panel Display Stand with Plastic Frame

- Remove top and base sets of panels from the card board outer carton
- Open out the base panels with the protruding sliders at the top of the panels and place in them into a "Z" shape.
- Push the sliders towards each outer corner of the panels.
- Lift the top set of panels onto base panels.
- Press each panel down firmly ensuring that the top panels snap into the sliders positioned in the base panels. (An audible click will be heard).
- Connect the header panel by using a piece of the U shape connector on either side of the header panel. This connector should overlap the base of the header panel and the top of the assembled panels.
- Please ensure that the Display Stand is assembled in an open U shape for stability.

- Attach pictures, graphics, etc. using Velcro hook tabs (recommended).

- Please note that due to the nature of the panel core, drawing pins are not recommended for continuous/ changing use.

To Dismantle this Display Stand

- Remove the header panel.
- Concertina the display stand together.
- Fold the top panels forward until they unclip.
- Place both sets of panels and the header panel into cardboard box.
