Midi Desktop Display Stand

How to Assemble a Midi Desk Top Display Stand with Aluminium Frame.

• Remove the Display Stand from the packaging.

• Place onto a suitable surface such as a table or desk.

• Attach the header panel by slotting the locating pins (fi xed to the header panel) in the sockets of the assembled panels.

• Display material can be attached using Velcro Hook tabs (recommended).

• Please note that due to the nature of the panel core, drawing pins are not recommended for continuous/changing use.
