Cruise speed: 13 knots

Max speed: 15 knots

Built: 2017

Builder: Amels

Exterior design: Tim Heywood Design

Interior design: Remi Tessier

DESCRIPTION

The Amels shipyard's motor yacht, "Driftwood," measures 55m/180'5" and boasts flexible accommodations for up to 12 guests across five cabins, with interior styling by Remi Tessier. Driftwood offers an impressive variety of social and dining areas, both inside and out, from bow to stern, making her an ideal yacht for relaxation and entertainment while on charter.

Driftwood is family-friendly, with a layout comprising a master suite on the main deck, two double cabins, and two cabins that can serve as twins or doubles. The full-beam master suite is exceptionally spacious, with a study and dressing room. The bed configuration includes 1 king, 4 queens, 4 singles, 3 pullmans, and 1 convertible. The yacht can also carry up to 13 crew members onboard, ensuring a luxurious and relaxed charter experience.

With a steel hull and aluminum superstructure, Driftwood provides greater on-board space and is more stable when anchored, thanks to her full-displacement hull. Powered by twin MTU engines, she can comfortably cruise at 13 knots, with a maximum speed of 15 knots and a range of up to 4,500 nautical miles from her 115,000-liter fuel tanks at cruising speed.

Driftwood is available for luxury yacht charters all year round in the beautiful waters of Central America and the South Pacific. With up to 13 professional crew members, this ocean-going yacht is ready to cater to your every need and show you the magical places, food, and experiences of these stunning destinations.
