Cruise speed: 14 knots

Max speed: 16 knots

Built: 2018

Builder: Admiral

Exterior design: Tim Heywood Design

Interior design: Mlinaric, Henry & Zervudachi

DESCRIPTION

In 2018, Italian shipyard Admiral Yachts constructed the Planet Nine, a 73m/240ft expedition yacht. The vessel is a leading explorer yacht with luxurious chartering options, designed by the world-renowned Tim Heywood.

With 2,100 GT and a range of impressive amenities, including an ice-class exterior, a dedicated helipad, a jacuzzi, a steam room, a sauna, a theatre room, and ample water toys, Planet Nine offers guests the ultimate yachting experience.

The London-based design house Mlinaric, Henry and Zervudachi (MHZ) created the yacht's stunning interior, which combines classic yacht elegance with a modern touch. The main deck is dedicated to the master suite, while the upper deck offers exceptional living areas, including a formal dining area, a panoramic observation lounge, and a VIP suite. The yacht can accommodate up to 12 guests in eight cabins.

With a cruising speed of 14 knots and a range of 6,000nm, Planet Nine is a combination of performance and luxury. Whether you're a beginner or a seasoned pro, the yacht's plentiful range of water toys, including jet skis, towable toys, waterskis, a kite surfer, a seabob, wakeboards, canoes, fishing equipment, and four tenders, offers hours of entertainment. With all these features and more,

Planet Nine is one of the most outstanding and innovative expedition yachts in the world.
