

Skyrizi

(risankizumab-rzaa)
humanized monoclonal antibody
IL-23A antagonist
treatment of moderate-to-severe psoriasis
150 mg once every 3 months
AbbVie/Boehringer Ingelheim

Polivy

(polatuzumab vedotin-ppiq)
antibody-drug conjugate
anti-CD79b + tubulin inhibitor
treatment of lymphoma (RR-DLBCL)
1.8 mg/kg IV once every 3 weeks
Genentech (Roche)

Givlaari

(givosiran)
siRNA
targets ALAS mRNA
For acute hepatic porphyria
2.5mg/kg subcutaneously once a month
Alnylam

Padcev

(enfortumab vedotin-ejfv)
antibody-drug conjugate
anti-nektin-4 + tubulin inhibitor
treatment of refractory bladder cancer
1.25 mg/kg IV once a week
Seattle Genetics/Astellas

Vyondys 53

(golodirsen)
antisense oligonucleotide
targets DMD gene exon 53
treatment of Duchenne muscular dystrophy
30 mg/kg IV once a week
Sarepta

Evenity

(romosozumab-aqqg)
humanized monoclonal antibody
sclerostin inhibitor
treatment of osteoporosis in high-risk women
210 mg subcutaneously once a month
UCB (acq. Celltech)

Beovu

(brolucizumab-dbll)
humanized single-chain antibody
VEGF-A inhibitor
treatment of wet AMD
6 mg intravitreally once a month
Novartis/Alcon (acq. ESBATech)

Adakveo

(crizanlizumab-tmca)
humanized monoclonal antibody
P-selectin inhibitor
treatment of painful complication of sickle cell
5 mg/kg IV once a month after loading dose
Novartis

Cablivi

(caplacizumab-yhdp)
bivalent single domain antibody (nanobody)
anti-vWF (von-Willebrand factor)
treatment of aTTP (clotting)
11 mg subcutaneously once daily
Sanofi (acq. Ablynx NV)

Enhertu

(fam-trastuzumab deruxtecan-nxki)
antibody-drug conjugate
anti-HER2 + topoisomerase inhibitor
treatment of HER2+ met. breast cancer
5.4 mg/kg IV Q3W dosing
AstraZeneca/Daiichi Sankyo

Jeuveau

(prabotulinumtoxinA-xvfs)
muscle paralytic botulinum toxin
BOTOX similar agent
temporary treatment of facial wrinkles
Intramuscular injection
Evolus

Reblozyl

(lus�atecept-aamt)
ActRIIB-IgG recombinant fusion protein
TGF-β inhibitor
treatment of anemia from beta thalassemia
1 mg/kg subcutaneously once every 3 weeks
Celgene/Aceleron

Vyleesi

(bremelanotide)
synthetic α-MSH peptidomimetic
melanocortin receptor agonist
treatment of HSDD in premenopausal women
1.75 mg subcutaneously
AMAG/Palatin

Scenesse

(afamelanotide)
synthetic α-MSH peptidomimetic
Melanocortin receptor agonist
for erythropoietic protoporphyria
delivered by subcutaneous implant
Clinuvel
