

## Blenrep

(belantamab mafodotin-blmf)  
antibody-drug conjugate  
anti-BCMA + microtubule inhibitor  
for multiple myeloma  
2.5 mg/kg IV over 30 mins Q3W  
GlaxoSmithKline

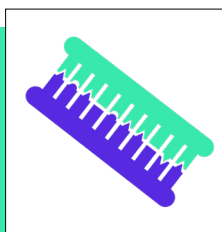

## Sogroya

(somapacitan-beco)  
human growth hormone analog  
ligand for GH receptor  
for growth hormone deficiency  
1.5 mg SC once weekly  
Novo Nordisk

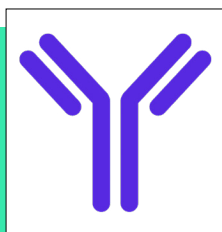

## Margenza

(margetuximab)  
chimeric monoclonal antibody  
HER2/neu receptor antagonist  
for HER2+ breast cancer  
15 mg/kg IV Q3W  
MacroGenics

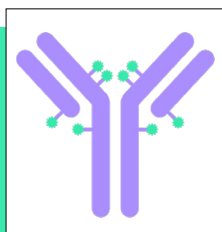

## Oxlumo

(lumasiran)  
double-stranded siRNA  
HAO1 mRNA silencing  
for primary hyperoxaluria type 1  
3 mg/kg SC Q3M (> 20 kg)  
Alnylam Pharmaceuticals

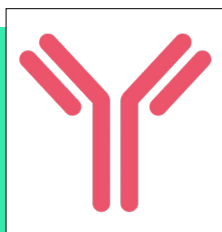

## Ebanga

(ansuvimab-zykl)  
human monoclonal antibody  
anti-EBOV GP1  
for Zaire ebolavirus  
50 mg/kg IV over 60 mins  
Ridgeback Biotherapeutics

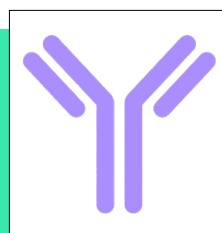

## Trodelvy

(sacituzumab govitecan-hziy)  
antibody-drug conjugate  
anti-Trop2 + topoisomerase inhibitor  
for metastatic triple-negative breast cancer  
10 mg/kg IV QW for 21-day treatment cycles  
Immunomedics

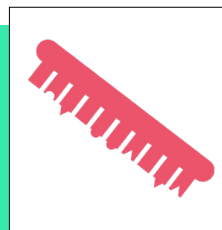

## Vyepti

(eptinezumab-jjmr)  
humanized monoclonal antibody  
CGRP inhibitor  
preventative treatment of migraine in adults  
100 mg IV Q3M  
Lundbeck

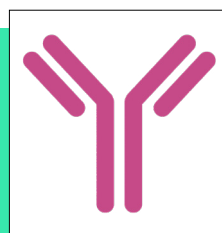

## Danyelza

(naxitamab-gqgk)  
humanized monoclonal antibody  
anti-GD2, CDC + ADCC induction  
high-risk refractory/relapsed neuroblastoma  
3 mg/kg IV on days 1, 3, 5 of each treatment  
Y-mAbs Therapeutics

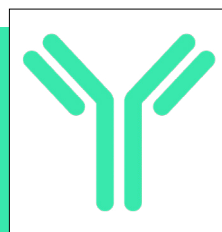

## Viltepso

(viltolarsen)  
antisense oligonucleotide  
dystrophin pre-mRNA exon 53 binder  
for Duchenne muscular dystrophy  
80 mg/kg IV once weekly  
NS Pharma

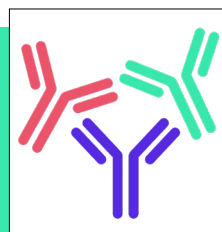

## Monjuvi

(tafasitamab-cxix)  
humanized monoclonal antibody  
anti-CD19, CDC + ADCC induction  
for relapsed or refractory DLBCL  
12 mg/kg IV Q2W (starting cycle 4)  
MorphoSys US

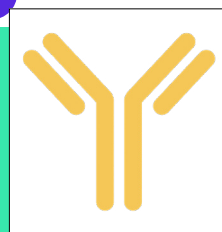

## Tepezza

(teprotumumab-trbw)  
human monoclonal antibody  
IGF-1R binder  
for thyroid eye disease  
10 mg/kg IV (1st), 20 mg/kg Q3W (2nd - 7th)  
Horizon

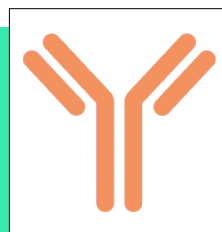

## Inmazed

(atoltivimab, maftivimab, odesivimab-ebgn)  
human monoclonal antibodies  
anti-EBOV GP1,2  
for Zaire ebolavirus  
50 mg/kg IV of each antibody  
Regeneron

## Sarclisa

(isatuximab)  
chimeric monoclonal antibody  
CD38 receptor binder  
for multiple myeloma  
10 mg/kg IV QW for 4 weeks, then Q2W  
Sanofi-Aventis

## Uplizna

(inebilizumab-cdon)  
humanized monoclonal antibody  
anti-CD19  
for neuromyelitis optica spectrum disorder  
300 mg IV Q2W, then Q6M after 6 months  
Viela Bio

\*Enspryng (satralizumab), mAb, not shown
