

Lawn Feed

Premium organic
lawn fertiliser

Lawn Feed

Premium organic
lawn fertiliser

By choosing LAWN FEED you're contributing to a circular economy while also using a more sustainable fertiliser that is certified organic, making your green spaces safer for your family and pets.

Manufactured from cattle manure at Australia's largest feedlot on the Darling Downs, **LAWN FEED** is a premium, organic carbon-based fertiliser, with each fine granule delivering a combination of nutrients and trace elements essential for healthy soil and lawn growth.

The first organic cattle manure-derived fertiliser made in Toowoomba QLD, a city recognised for its gardens, **LAWN FEED** is proven to enhance nutrient and water holding capacity, while encouraging strong root growth, improved disease resistance and boost microbial activity in your soils. With regular use, **LAWN FEED** will result in a greener, thicker lawn all year 'round.

Benefits

- Suitable for all lawns, golf courses, sporting turf and gardens
- Low odour
- Granulated from humic compost
- Boosted with blood and bone, gypsum, and sulphate of potash
- High water holding capacity
- Proven to increase root development while enhancing microbial activity

Soil Health

LAWN FEED is based on a single source composted cow manure that provide a range of important benefits including:

- Improve soil structure, reduce high water and nutrient losses in poor soils
- Helps to buffer soil pH
- Enhance plants' natural resistance to diseases and pests
- Stimulates root growth and improve the plant uptake of nutrients and water
- Labile carbon is a major food source for soil microbes

DIRECTIONS FOR USE:

- **Horticulture/ Home Garden:**
Spread up to 200 grams per square metre, at the beginning of each season to maximise lawn health. Water in well.

TYPICAL ANALYSIS

Lawn Feed

(3-1-4-2)

	%w/w
Nitrogen as organic %	2.5
Total Nitrogen (N) %	2.5
