

## CARPARK RE-DEVELOPMENT BRINDABELLA BUSINESS PARK

A brand new multi-storey carpark is currently being built in Brindabella Business Park.

The new carpark will be located between 37 and 39 Brindabella Circuit and will include an additional 570 new undercover parking spaces.

The construction programme will commence from May 2019 with completion expected mid 2020.

During this time, signage and detours will be in place to ensure the safe and efficient movement of vehicles around the construction area and the airport precinct. These detours will impact the traffic travelling towards Queanbeyan from Terminal Avenue.

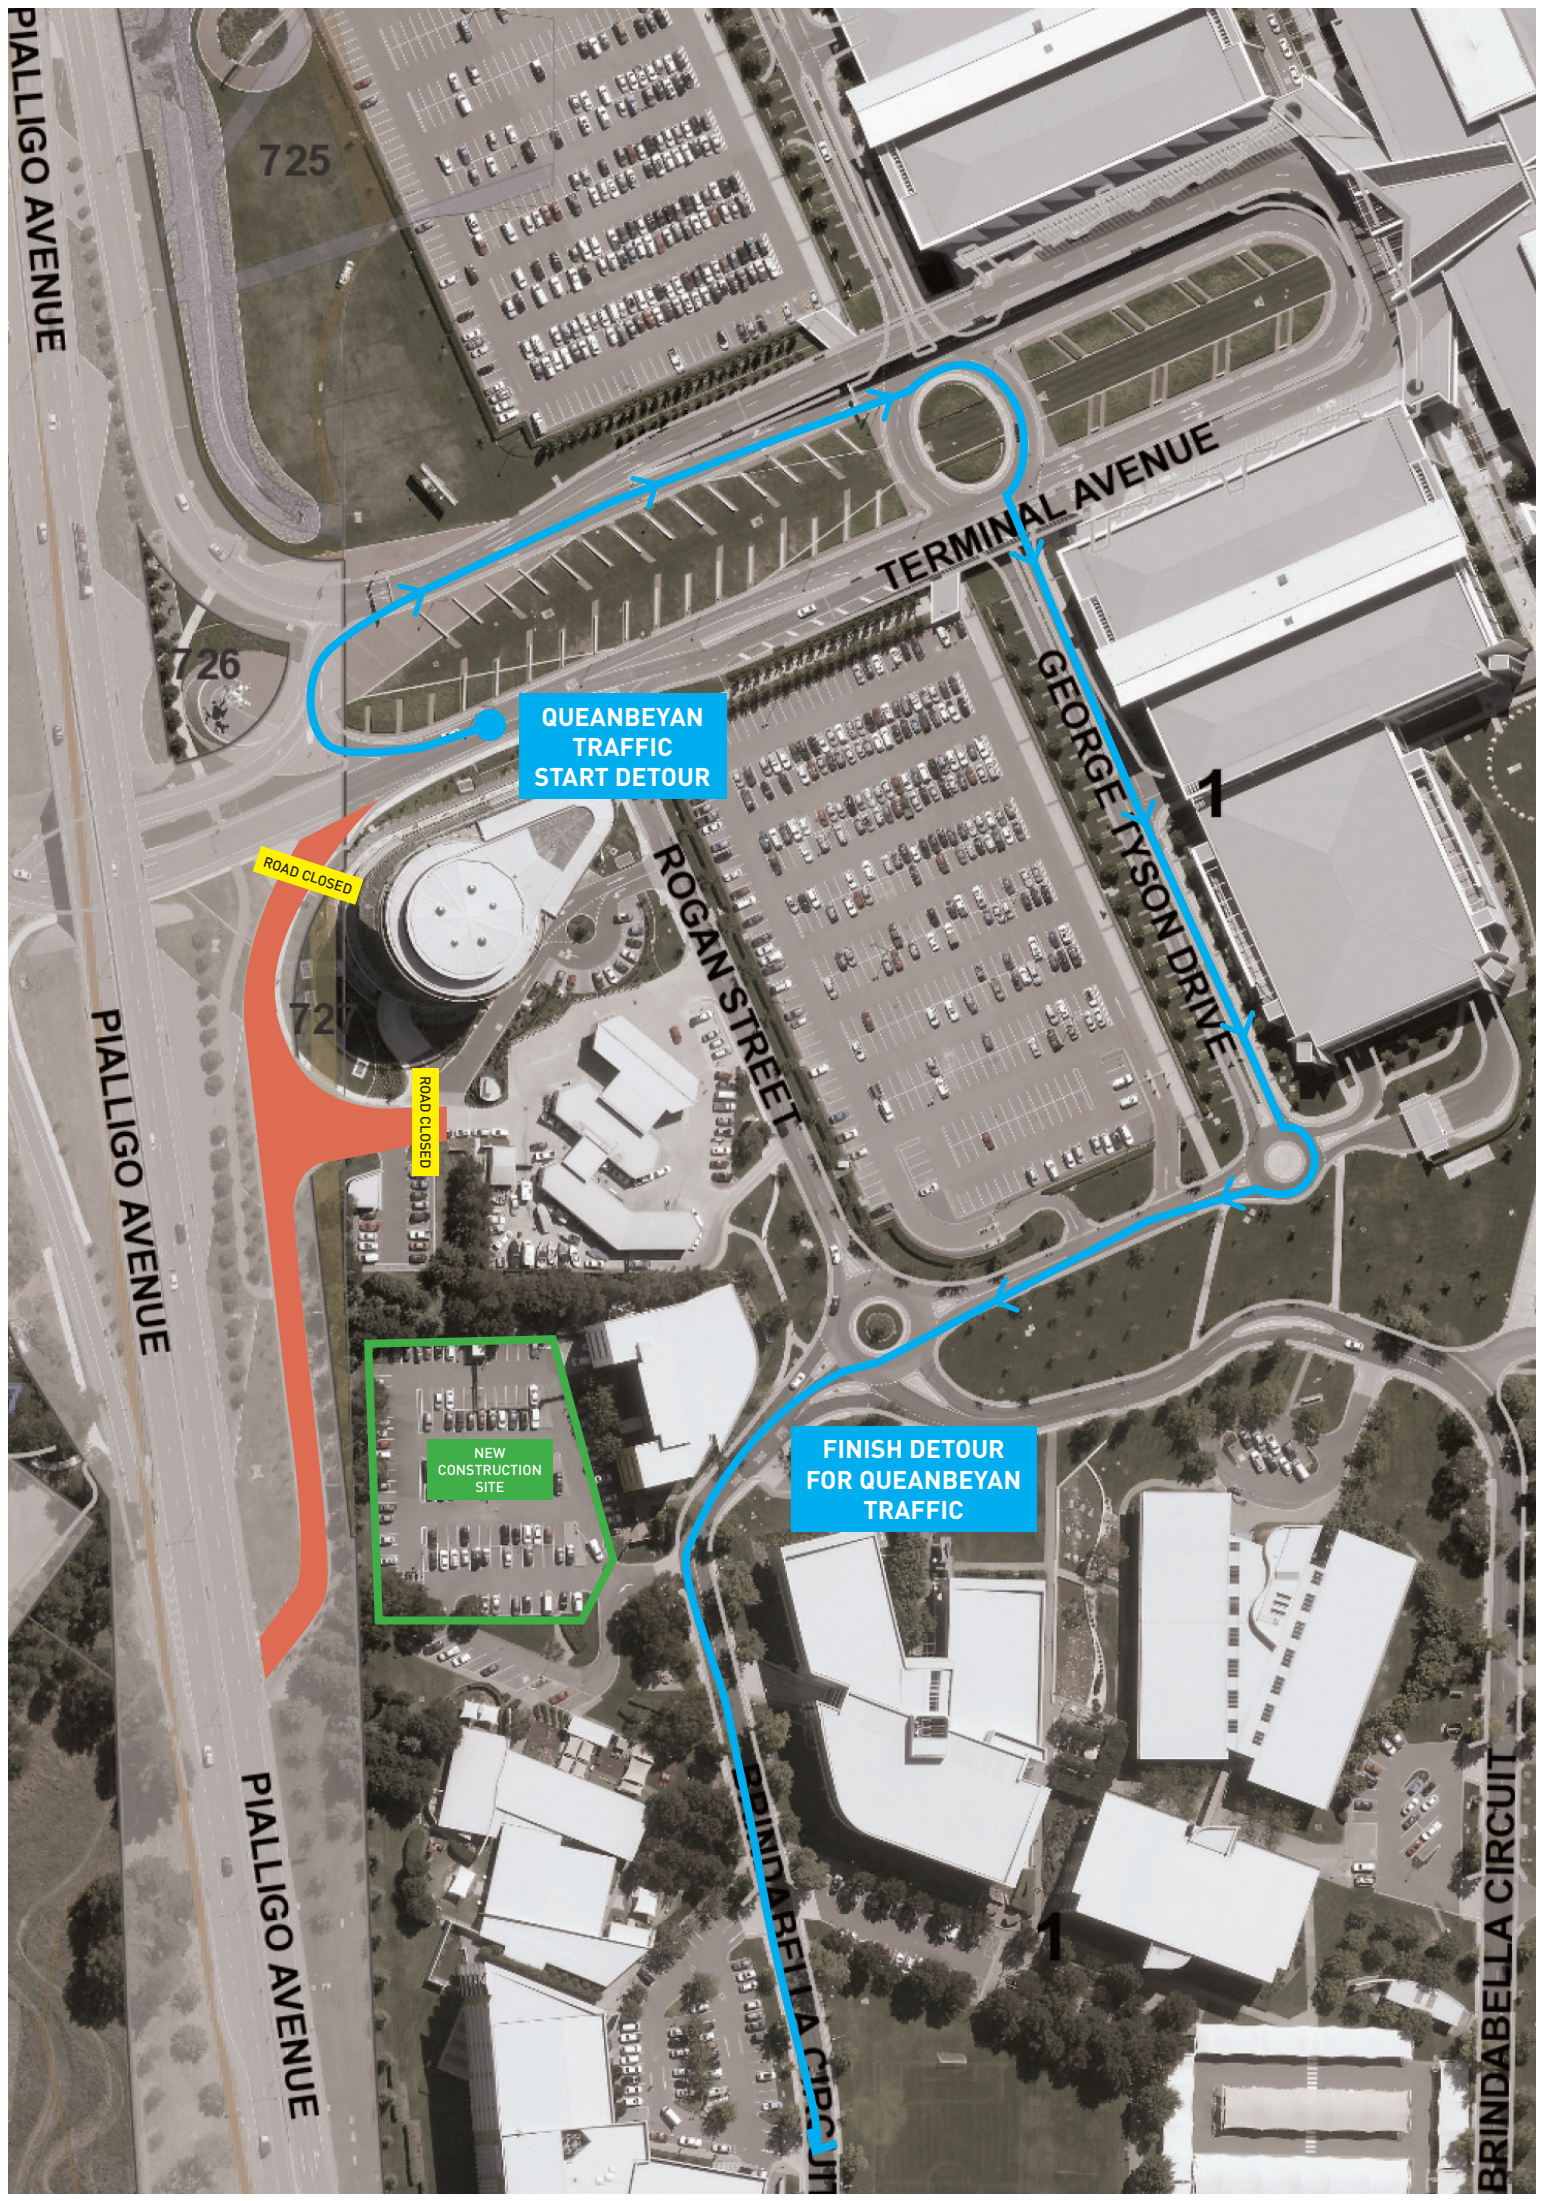

The map overleaf indicates this detour route from Terminal Avenue through Brindabella Business Park towards Queanbeyan.

Traffic travelling towards the City from the airport will not be affected by any detours.

Thank you very much for your co-operation. We appreciate your patience during this time whilst we work to improve parking facilities within Brindabella Business Park.
