

### Skoda Superb 2020-

- 1 Location Triplog
- 2 Surplus Cable
- 3 +12V connection (red)
- 4 Ground connection (black)
-  Cable Routing

For the best cable routing lift up the rubber.

Remarks: To access the +12V connection, remove the black plastic cover. Make sure that the plastic cover is put back correctly.

Use the ground connection directly on the chassis right next to the fusebox.
