

Working Load Limits

It is vital that the correct lifting sling is chosen and certain entities are considered, including the capacity, length, number of slings used in a lift and the angle of inclination.

Flat Slings

Our own weaving facility on site gives us the ability to design and manufacture flat sling constructions varying from 1T to 50T.

Manufactured from 100% polyester fibres (PES), our flat sling products cover sling types from simplex, duplex, endless to quadplex. Our lifting slings are a more versatile solution than substitute products such as wire rope or chain options.

For special applications, we can also offer custom made solutions.

- FLAT SLINGS UP TO 50T (QUADS) SAFETY FACTOR 7:1
- WOVEN FROM HIGH TENACITY POLYESTER (PES) YARN
- STRIPE DENOTES SWL
- COLOUR CODED FOR EASY IDENTIFICATION
- OFF THE SHELF PRODUCT AVAILABLE UP TO 6T (STANDARD)
- CUSTOM MADE SOLUTIONS FOR NON STANDARD APPLICATIONS
- AVAILABLE WITH A CHOICE OF WEAR SLEEVES FOR ADDED PROTECTION AT THE LOAD POINTS
- MANUFACTURED AS STANDARD IN ACCORDANCE TO EN1492-1
- GLOW SLINGS ARE PRODUCED WITH REFLECTIVE YARN - IMPROVING SAFETY AND EFFICIENCY BY INCREASING VISIBILITY IN LOW LIGHT LIFTING OPERATIONS

Standard Flat Slings

Our most popular sling type – Available up to 12T, our standard flat slings come in simplex (1 layer) and duplex (2 layer) forms and offer solutions to most lifting problems.

Woven from high tenacity polyester yarn, these slings feature low weight, flexibility of use and ease of handling. They give significant improvements in safety and costs in comparison to other lifting equipment.

DUPLEX *Also available in Simplex - call for details.*

Flat Slings CONTINUED

Quadplex Flat Slings

Specially designed and fabricated for superior performance, our quadplex slings are comprised of 4 layers and are available up to 50T.

These lifting slings are compatible with a large range of hardware as well as standard sewn eyes.

DON'T FORGET...

We also sell hardware and wear sleeves with our slings or you can send us your preferred hardware for us to assemble.
