

RGL2 BIGGUY

SINGLE LEG ROPE LANYARD & SHOCK ABSORBER (Tested and approved for a user weight up to 140kg)

The Big Guy shock absorber lanyard range offers fall protection for users up to 140kg, when used with any RIDGEGEAR harness.

This lanyard comes with an aluminium, ANSI rated scaffold hook which has increased gate strength..

An industry standard, and usually the minimum equipment issued/required with a harness for anyone working at height. We use 11mm kernmantle rope which has machine stitched connection eyes at each end. The protective sleeves at the rope ends help to protect against stitch abrasion.

This lanyard should be used when the operative is working from a static position, connected to a fixed anchor point.

The RGL2 Big Guy is supplied at a length of 1.4m including hooks/karabiners.

Accredited to: EN 355:2002
