

a quick guide on how to create **a** **cryptocurrency** **wallet**

it is completely free and
shouldn't take you more
than 5 minutes, **using our**
3-step guide!

01 introduction

step 01

create your own cryptocurrency wallet

1.1

we recommend installing MetaMask as your wallet provider. You can do this via the following link:

<https://metamask.io/download.html>

1.2

Follow the prompts to “Create a Wallet”.

1.3

Important: Make sure to follow the instructions regarding your security recovery phrase.

**congratulations, you now
have a cryptocurrency
wallet!**

Go to step 2 to connect your wallet to OpenSea.

step 02

connect your wallet to OpenSea

2.1

Head to OpenSea via <https://opensea.io/>

2.2

Click on the wallet icon in the top right corner and follow the instructions.

step 03

provide us your wallet address

3.1

Once connected, open your wallet again by clicking the wallet icon and click on your address to copy it automatically.

3.2

Now simply paste your wallet address along with your e-mail address on our website via the following link <https://abstraction.games/beyondspecial> and we'll make sure you receive your gift on 18 January.

3.3

After which you will be one of the first owners of our Abstraction NFT!

**happy
holidays and
have a
wonderful
new year.**
